DOPPLER

Elevating your World.

Welcome.

Elevating your World.

In more than 65 countries!

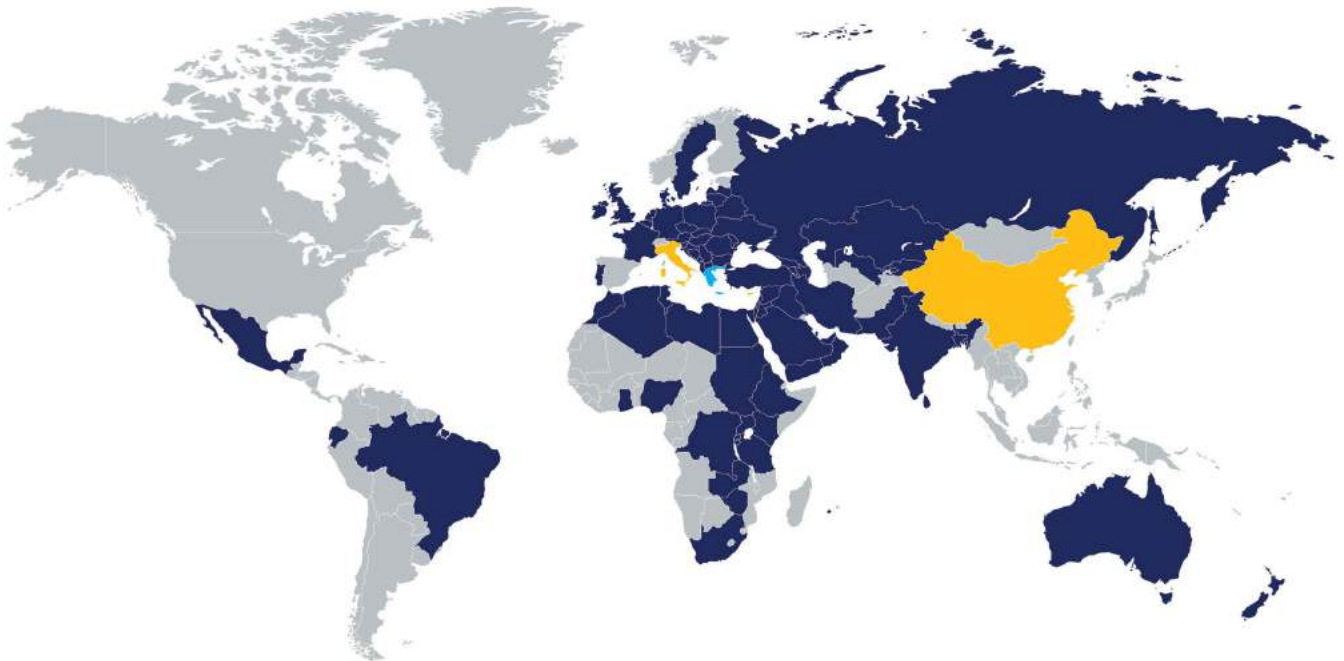

Ever since its establishment, DOPPLER has been setting high goals which led to a strong and profound presence on the global map and products in more than 65 countries.

With its high quality in production and its competitive prices, DOPPLER is increasingly “lifting” and has succeeded to form its ratio of the Greek market - Exports to 10% - 90% from 70% - 30% in 2008!

Russia and MENA countries are the top exporting markets while some of the main markets are Northern Europe, Balkan countries and CIS states. In 2010, DOPPLER entered into North and South Africa, the Middle Eastern countries (GCC), Latin America and Australia.

DOPPLER is also planning to expand its activities both in Central Africa and America.

On this basis we are looking to the future with confidence!

Cabins.

Elevating in style!

In DOPPLER, we design exceptional cabins with high aesthetic appearance, extreme durability and tailor made finishes.

A wide variety of side walls, floors, false ceilings, handrails and accessories are available in order to create a cabin that will fit your individual style and expectations. DOPPLER offers complete and customized solutions to suit every need. Safety is our top priority thus we use high quality products and materials to ensure the elevator quality status.

Our cabins are being upgraded from a single means of transportation, to an architectural element. A unique collection of materials and colors are waiting for you.

Galaxy laminate.

Take a lift to the stars!

The Galaxy may belong to DOPPLER's basic line, however it offers unbelievable combinations. Thanks to a system of multiple standardized options, we have the opportunity to differentiate according to our customers' needs. A wide range of different colored laminates and designs, inox corners, floors, false ceilings and handrails, compose top class cabins.

Galaxy Glass.

Reflecting elegance.

The Galaxy Glass cabin is designed to integrate into different architectural tensions. Glass increases the sensation of luminosity ensuring the harmony with the architectural style. It updates the aesthetic appeal making the lift more attractive, functional and safe.

DOPPLER offers the highest quality of materials providing a wide variety of different colored glasses to choose from, in order to ensure that your individual requirements will be reflected to the final product.

Inox.

Classic is the new modern!

The industrial style finds its ultimate expression in the Inox series.

A wide range of finishing and false ceilings made entirely of brushed stainless steel or mirror - for a more impressive result - and carefully selected floors and handrails, compose high aesthetical and robust cabins.

At the same time and in order to underline how important DOPPLER considers every detail, we offer the opportunity to construct corners - either the classic straight form or the curved - and the use of special or patterned inox finishing.

Inox myCOLOR.

Put color in your space!

The industrial style comes in perfect combination with our groundbreaking series Inox myColor, the updated version of the Inox series.

The new trends want to soften the “strictness” of the Inox with different shades, and DOPPLER as an innovative company, manufactures trendy and elegant cabins which highlight their absolute modern design by creating a pleasant mood. Therefore, they are being chosen by young couples, civil engineers and architects who emphasize on design and atmosphere at home or in the office.

Epoxy.

Low cost but not shabby!

Simplicity meets functionality in the Epoxy series.

Powder coated* ceilings and side walls in high quality and durability, modern spot lights on the ceilings and durable plastic floors, make up the affordable solution for many years of daily elevation, without compromises!

* Powder coating is the manufacturing process of coating metal surfaces with special epoxy or polyester resins in order to achieve protection against corrosion and also the desired color and appearance. For painting surfaces for architectural applications, polyester powders are used. These powders are characterized by high resistance to external

conditions. DOPPLER has a special oven of a total length of 32 meters, total area of 160 m² (square meters) and total volume of 400 m³ (cubic meters). The unlimited variety of colors offered by electrostatic paint is one of the factors that led to today's widespread use.

The color codes are based on the RAL color matching system.

Epoxy myREFLECTION.

Make it personal!

The advanced generation of the Epoxy line is the new series, Epoxy myReflection.

DOPPLER offers the option of a digital printing in the interior of the cabin according to the desired image of the client and his personal style, or a slogan/logo for companies.

Furthermore we can offer a library with a wide selection of images.

Forest.

Travel... naturally!

For the wood lovers, we created the Forest series.

The perfect combination of horizontal wood panels with stainless steel details, high quality floors and artificial granites, creates a warm and intimate composition.

The cabins of the Forest series are ideal for residences and hotels.

Prestige.

Worth every inch!

The sophisticated elegance is reflected in the prestige series.

The variety in materials, false ceilings, handrails, floors and mirrors in unlimited combinations, create high class cabins, distinguished for their absolute design and luxury.

Ease.

Double face Cabin!

Ease, Doppler's new cabin, introduces a new Era in elevator's industry. HoneyComb which is the main body of this cabin is a very durable, fireproof and light material.

Ease cabin series combines one car side panel with two different finishes/colors, two cabins in one essentially. Considering every detail, a wide variety of customized finishes and printed walls are available to make your own unique design. Installation becomes easy thanks to lightweight panels and their new installation/ replacement method.

Key points

- ▶ Ease of installation
- ▶ Light weight
- ▶ Durable materials
- ▶ Double face availability
- ▶ Side walls replacement from cabin's interior
- ▶ Wide variety of finishes
- ▶ Customized finishes - Printed walls
- ▶ Modernization purposes
- ▶ Conformity with EN81-20/50, EN81-21

The major advantage of Ease is the ability of replacing any of the side walls with great ease and speed. In case of damage due to extensive usage or vandalism, the worn panels can be replaced or overturned, as both sides are designed in the same way.

Tailor made solutions.

Panoramic lifts.

Carried Away by the View!

In DOPPLER, we design panoramic cabins for those who look for an eye contact enjoying the view from above. Widely used in shopping malls, business & entertainment centers, hotels or private villas, these lifts add value, style and distinction to the design of the building.

Depending on wishes, our panoramic lifts come in various shapes and sizes. Square, semi-circular or completely circular, our panoramic cabins are perfectly covering the most demanding design and requirements. The transparency of the glass offers extra elegance to the environment while giving a great prestige to the building.

Cargo & Car lifts.

Your Heavyweight Choice!

Doppler's Goods/Car Lift Cabins are designed to withstand every hardship, satisfying even the most demanding requirements of functionality. Materials such as epoxy painted steel sheet, galvanized steel or even brushed stainless steel can be used specifically to withstand damage due to extensive and heavy usage.

Adding special functions to the significant benefits of Doppler's product, these cabins are equipped with central parking position system, double car operating panels, bumper rails on all sides ensuring the safe entrance and exit of the vehicles. Their construction is thought out to the smallest detail, facilitating the smooth transport of every vehicle with outmost safety.

Cabin design.

Make Your Lift Unique!

The details are not the details. They make the design.

► Charles Eames

Create the cabin that appeals to your style.

DOPPLER offers a great range of materials and colors giving you the opportunity to create the ideal cabin for your needs.

Choose among different kinds of side walls and floors.

Combine granites, tiles, carpets, laminates, steel and wooden panels to lift the style up!

Fully Automatic Sliding Car & Landing Doors

Specifications

- ▶ Low noise, reliable & smooth operation using VVVF driven motor
- ▶ Option for automatic emergency operation
- ▶ Wide variety of choices depending on the needs of your building
- ▶ Finished in various stainless steel patterns or epoxy paint
- ▶ Glass panels with or without stainless steel frame
- ▶ Round shaped
- ▶ Easy installation
- ▶ Wide span of life with minimum maintenance
- ▶ Door locks certified according EN81 regulations
- ▶ Fire rated if required (E-120, EI-60)

Automatic Folding Car Doors

AUTOMATIC FOLDING CAR DOORS

The automatic folding car door is the ideal solution for lifts with swing opening landing doors. The main advantage is the small shaft width required.

Swing Opening (Semi - automatic) Landing Doors

Selected as a cost effective solution for both passenger and goods lifts. Entrance clearances vary from 600mm to 3.000mm, single panel or two-panels, satisfying a wide range of applications.

Distinguished for:

- ▶ Stiff and reliable structure
- ▶ Wide range of paints and finishes
- ▶ Easy installation and maintenance
